

Job Vacancy - LEV Test Engineer - Dust & Fume Market

Durham Filtration Limited has an expanding business in the Industrial Dust Control market. We are very focused on developing our market share and we are looking for a talented LEV Test Engineer to support our existing business and to assist with future growth. This post is a customer facing role and will attract relevant training & development, leading to a solid career path for the right individual.

ABOUT DURHAM FILTRATION

Durham Filtration was founded in 1977 and is a significant independent provider of filtration products, in addition to the Dust & Fume markets; we are also suppliers to the Oil & Gas sector, Power Generation Plants (Inc Biomass), Food, Beverage & Pharmaceuticals, and General Industry.

Our requirements:

- Minimum, City & Guilds Mechanical Engineering
- P601 trained with at least 2 years field experience
- Good report writing skills
- Full driving licence

Location:

- Midlands, East Midlands, Yorkshire

Key Duties:

- LEV (Local Exhaust Ventilation System) testing
- Report writing, both standard format & bespoke
- Site surveys
- Maintaining asset registers

Package:

- Salary & Bonus – Dependent upon experience
- Holiday – Initially 20 days per year plus statutory
- Car – Ford Focus or similar
